2020-08-10 **Changelog: INT-TSI, TSI Builder**

We have released the new version of TSI Builder software, containing INT-TSI keypad's new OS and program. If an earlier version of the TSI Builder is already installed on your computer, the update will be performed automatically.

TSI Builder 1.4 (release date 2020-08-10)
OS (7.4.2885)
Program (1.8.47.0)

Improved:

- handling for inputs, outputs and partitions from the "List" widget
- user login with a one-time code.

2020-07-14 **Changelog: PERFECTA, PERFECTA Soft**

We have released a new firmware versions for **PERFECTA** family control panels. New release of **PERFECTA Soft** configuration software is also available now.

PERFECTA 1.04 (release date 2020-06-03)

Added:

- switching between SIM cards in case of problems with Internet connection
- triggering the "19. Trouble status" type outputs in the event of:
 - radio system jamming (only PERFECTA WRL models)
 - radio system failure (only PERFECTA WRL models)
 - no voltage on the telephone line (only PERFECTA-T models)
 - no signal after going off hook (only PERFECTA-T models)
 - troubles with transmission to station 1
- service functions 748 and 768 – applies to configuration of the suspend time between reporting attempts to stations 1 and 2

Improved:

- operation of the the zones with the reaction type "4. Double knock" when both partitions to which this zone belongs are armed
- support for special characters used in SMS

Changed:

- PUSH event type from "Diagnostics (troubles, restarts)" to "Other" (code 970 - PERFECTA Soft - connection / disconnection)
- time of reporting „AC supply trouble" when the Grade 2 option is enabled - delayed by 10 s (does not apply to "19. Trouble indicator" type outputs)

Webinar recordings

Our specialists from the Technical Department conduct online training in the form of webinars. They discuss topics related to different product groups. Some episodes are about programming and configuration issues, others present functionality of a given group of products or a specific device, part of them show interesting facts and installation tricks.

You will receive information about upcoming webinars via newsletter after agreeing to receive electronic surveys and promotional materials in [your profile settings](#)

If you can't attend the live event, we have a great solution. Here we publish the recordings of these trainings so that you can watch them at any time that is convenient for you and become familiar with the knowledge they contain.

SLIM LINE	Recording date 2020-03-23	Duration 54:52	Watch
PERFECTA	Recording date 2020-04-08	Duration 57:22	Watch
GSM-X & GPRS-A – Intro to communication modules	Recording date 2020-04-22	Duration 53:59	Watch
GSM-X & GPRS-A – Configuration and setup for communication modules	Recording date 2020-04-23	Duration 1:16:12	Watch
PERFECTA – Programming	Recording date 2020-04-09	Duration 1:02:18	Watch
ABAX 2 – Introduction to wireless system	Recording date 2020-04-27	Duration 55:20	Watch

ABAX 2 + Modbus RTU

Support for open communication protocol

Now you can easily integrate the ACU-220 and ACU-280 controllers e.g. with automation or data acquisition systems.
