

H5A MODULAR CAMERA 3 MP 5 MP

THE SMALLEST AVIGILON CAMERA FOR THE MOST CHALLENGING SPACES

The Avigilon H5A Modular camera is designed for areas with limited space or require a discreet and unobtrusive monitoring solution, such as ATMs, police interview rooms, retail checkout counters, building entrances or casino gaming tables. The camera's flexible imager modules can easily be positioned in different orientations to help capture the most optimal view of people or scenes of interest for investigations. It comes equipped with Next-Generation Video Analytics for enhanced object detection and classification, Unusual Activity Detection, and supports Facial Recognition and Avigilon Appearance Search™ technologies to help expedite response times for critical events.

CUSTOMIZABLE DESIGN

The camera's modular design offers greater customization capabilities. Imager modules are separated by detachable cables that connect to the main unit. Each main unit can support 1 or 2 imager modules. Mix and match different resolutions and/or form factors to suit site coverage needs.

NEXT-GENERATION VIDEO ANALYTICS

Detects more objects with expanded object classifications and greater accuracy for faster responses, even in crowded scenes.

FIPS 140-2 COMPLIANT

Brings increased data security with FIPS-compliant cryptography enabled on the cameras.¹

ONVIF® COMPLIANT

Native ONVIF Profile S, T and G compliance allows for easy integration with existing ONVIF infrastructures.

WIDE DYNAMIC RANGE

Captures high-quality image details, even in scenes with strong backlight.

DUST & WATER RESISTANCE²

IP66 rating for resistance from dust and water.

SMALL & DISCREET FORM FACTORS

Lightweight form factors allow for easy installation in practically any environment, especially for tight spaces and discreet applications, such as behind false walls or ceilings.
