

**Degrees of severity:**

1. Critical
2. Significant
3. Minor
4. Low

**Firmware Release**

**Product:** APLite controller

**Version:** V2.12

**Product Codes Affected:** HCX9XX

1. **Feature Description:** Decreased time take to perform full upload from the software. This improvement would be imperceptible on small sites and would yield perhaps a 20% improvement in speed on large sites where there are a lot of tags to be uploaded.

**Discovered:** N/A

**Severity:** N/A

**Exposure:** N/A
